INTERNATIONAL NEWS

LANDMARKS ACROSS UAE LIT UP WITH TIRANGA TO SUPPORT INDIA'S BATTLE AGAINST COVID-19

Indian flag was displayed on the world's tallest building - Burj Khalifa to support India's battle against COVID-19. A video was shared by Indian Embassy in UAE and tweeted #StayStrongIndia. The official WAM news agency reported that the Abu Dhabi National Oil Company (ADNOC) headquarters and Burj Khalifa in Dubai were lit up with the colours of Tiranga in unity with India as it responded to the second wave of COVID-19. At the same time, the minister of foreign affairs and international cooperation, Sheikh Abdullah bin Zayed Al Nahyan has proclaimed his confidence in India's ability to defeat the challenge of the resurgence in COVID-19 cases, the Gulf News reported.

EDUCATIONAL NEWS

Free online Python course-

Hex N Bit has recently launched a free entry-level online course on Python. The duration is 150 minutes and includes self-paced e-learning videos, codes, projects and quizzes. Upon completion, the company will provide a recognised certificate. Through this initiative, the company's aims to provide exposure to candidates for in-demand technologies and hopes to build confidence in students and make coding truly fun and easy to practice. Apart from this, Hex N Bit plans to launch more such free resources with projects in the fields of Artificial Intelligence, Internet of Things, Fundamental of Electronics, Android Application Development, and more. These courses will be offered in regional languages as well.

ORCHIDS NEWS----- FOUNTAIN OF KNOWLEDGE

-By AMOLIKA, Grade 5C

“Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family” - Kofi Annan

Hello Readers! Hope you all are doing good. Now I am going to share my opinion of writing articles to our amazing school's newsletter, that is-THE NAGARBHAVI BULLETIN. I am very happy that my articles are being published in the newsletter. I would like to thank my Principal ma'am, my dear teachers and the editorial team for their constant support and designing the Newsletters uniquely and interestingly. I am glad that i received gold medal in Newsletter activity.

Publishing articles results in growth of confidence, dissemination of knowledge and moreover learning new things always. I am always eager to write articles on various topics whether it is related to festivals, important days of the month, about school, various activities and so on. I am very proud that our school is giving a very good platform to publish articles in newsletter and it showcases our writing skills and helps to groom our personality.

I wish many more articles of mine will be published in our esteemed newsletter, THE NAGARBHAVI BULLETIN in coming days. I am proud to be an Orchidian.

MY THOUGHTS

Hello Readers!

I hope you all are fine, safe and fantastic at sound. Today I am going to boggle up your mind by some of the wildest and darkest secrets of nature.. So without any delay let's get started..

1. A lake exists which has the colour of the strawberry milk shake.. It's just unbelievably true. It's known as the Lake Retba in Senegal.

2. The White Desert in Egypt has a herd of half melted snowmen over there.. And more surprisingly, these snowmen are not carved by us but rather all thanks to the wind. This is simply enthralling.

3. The Cano Cristales River in Columbia is sort of a "Liquid Rainbow'. At a point of time in the year (usually between July and December) this river turns like a kaleidoscope of pink, yellow, blue and green. That sounds super prepossessing.

4. The Chocolate Hills in Philippines is simply awe-inspiring.. What most exciting here is to know the origin of the name of this hill. The name of this hill is inspired by it's shape which resembles the Hershey's Kisses Chocolate.

5. The Socotra Archipelago in Yemen is a beautiful landscape which is a home to some of the most exotic 700 types of flora and fauna and 180 unique birds.

So these were some of the spine tickling to rib chuckling natural wonders that we are gifted with.. I am sure that you must have felt relaxed after reading this article and knowing about these wonderful secrets of nature. Thank You.. Take Care:)

PARENT'S FEEDBACK

Hello all,

I am the parent of Vishaka. R, studying in Grade 3D.

I want to convey that Orchids-Nagarbhavi did an amazing job last academic year 2020 -21, which was a challenge in COVID 19 situation.

The online classes which was substituted for regular classes made my child active through out the year.

My child was connected to the school through other activities also. Sports classes, Art education classes, Dance classes, Special education classes, Facebook live sessions, Orchadio, Orchid TV and unplugged competitions through online were effective as my children were occupied consistently through out this pandemic.

I would say though there were few challenging situations at the beginning, it was solved quickly and we appreciate the efforts of it. All the teaching staffs did their best and helped children by giving their precious time.

I would suggest continuing the same service in the coming days and always stay connected with parents and children through feedback. Happy schooling and Learning for both parents and children.

Regards,
Mamatha. R

BLOG OF THE WEEK

MY IDEA OF A FUN WEEKEND

Hey guys.. I hope that you all are fine, safe and fantastic.. Getting bored at home??

Although we cannot go out due to the pandemic, you can have fun reading this blog in which I will be describing my type of weekend. Even small trips planned could be really fun.. Just keep reading further to know that how would I plan my exciting weekend..

This idea could completely be based on how you like to enjoy and differs from person to person because some are beach people whereas some are mountain ones.. Some people would also prefer to spend some quality time with friends, family and relative.. But if you ask me, my weekend could be something like this.. I would love to spend a weekend with my cousins, having a sleepover on Friday, playing till 12:00 am and then watching some horror movies.. A-ah.. Don't forget some popcorns.. And then the next day, Saturday...

WOOHOO!! It's beach time!!

Playing with the beach ball in the beach with cousins is just like a dream come true.. I mean- A fun come true!! That's so exciting.. And then after the heavy day at the beach,

nothing could be better if someone could give you a foot massage.. And then comes Sunday.. Hey.. you know what?? Sunday is my most favourite as well as my most hated day.. Wanna know why?? It's favourite because SUNDAY=FUNDAY.. But it's my most hated day because the next day is Monday, and Monday= Nightmare... On Sunday, I would play some outdoor games till afternoon and then take a long shower to feel rejuvenated and of course, how could we forget about some scented candles to fill the room with the divine aroma.. So this is how my fun and enthralling weekend be.. Hey I would love to share some facts about the aromatherapy..

It improves sleep quality, manages pain, reduces agitation and anxiety etc.. Aromatherapy is just wonderful.. So that's all for today's blog.. Hope you all enjoyed reading it.. I think that we all must go somewhere once in a year at least where we've never been before.. So just live with no excuses and travel with no regrets.. Take Care.. See you all next time..

Goodbye!!

-Chahat

FESTIVAL OF THE MONTH

MAHAVIR JAYANTI

Mahavir Jayanti is an auspicious festival for Jains. This year, Mahavir Jayanti was celebrated on the 25th of April. It is celebrated because of the birth of the 24th Tirthankara, Lord Mahavir. On this auspicious occasion, Jains all over the world, carry out a procession with the idol of Lord Mahavir and sing religious songs, and they celebrate this day with full fervor and enthusiasm. Lord Mahavir was the last spiritual leader of Jainism. Lord Mahavir was born in the 6th century BCE in Bihar, India. He was the child of queen Trishala and King Siddharth. Lord Mahavir had an interest in meditation and in Jainism. He left his throne and took the spiritual path at the age of 30.

The observance of Lord Mahavir were:

- 1) Ahimsa (Non-Violence)** - He believed that people should follow the path of Ahimsa.
- 2) Satya (Truth)** - He believed in saying truth and being truthful.
- 3) Asteya (Non-Stealing)** - He believed that people should be honest and they should not steal things.
- 4) Brahmacharya (Chastity)** - He did not believe in indulging in sensual pleasures.
- 5) Aparigraha (Non-Attachment)** - He believed that people should not attach to non-material things.

Thank you!
